

380V Low-Voltage Distribution Box

Preview

Introducing our Distribution Box without Internal Barrier, a high-performance low-voltage solution designed for versatile applications. With a rated voltage of 380V/220V and a current range of 250A to 6A, this distribution box adheres to the GB/T 7251. Its durable design. For currents up to 250A, the box supports customized combinations of molded case circuit breakers (MCCBs), miniature circuit breakers (MCBs), and other components. Two versions are available: With protective panel: Enhances operator safety during switch operation. Designed to provide safe and efficient distribution of electricity, it plays a vital role in ensuring reliable operation of various electrical devices and systems.

1 Wide applicability: Suitable for 380V low-voltage metering boxes and various power distribution systems. 2 Multifunctional integrated control: Combines distribution, metering, protection, control,

XL-21, a power distribution cabinet, is a crucial component in

Professional GCS Low Voltage Drawer Switchgear 400V 2000A Withdrawable Distribution Panel No reviews yet Huzhou Huakong Trading Co., Ltd. CN

The PZ30 Series Low Voltage Distribution Box is a modular electrical cabinet designed for safe and efficient power distribution in 220V/380V circuits. With modern aesthetics, safety-focused

The main business covers the manufacturing of medium-voltage and low-voltage switchgear up to 35kV, distribution transformers, new energy grid-connection

XL-21 Low Voltage Power Distribution Cabinet supports AC 380V-660V, 50/60Hz. Featuring modular design, IP30 protection, and cold-rolled steel enclosure. Ideal for factories, buildings & power plant.

It serves as the central hub for receiving and distributing electrical energy in low-voltage systems up to 380V. Designed for power plants, substations, industrial enterprises, and commercial buildings, the

Introducing our Distribution Box without Internal Barrier, a high-performance low-voltage solution designed for versatile applications. With a rated voltage of 380V/220V and a current range of 250A to

Complete sets of distribution boxes, distribution panels, control panels, control boxes, power supply cabinets, electrical cabinets, etc.

The cabinet is of a closed structure, and all internal components are fixedly installed. It is used for power

380V Low-Voltage Distribution Box

distribution, control, protection, and metering on the low-voltage side. The structure is simple, the

Highlights at a glance GGD Type Construction Site Switch: Ideal for low-voltage electrical control cabinets.
Customized Current Distribution Cabinet: Tailored for precise current management. IP40

Customized XL-21 Low Voltage Power Distribution Cabinet Three Phase Electrical Panel Board Switchgear for Industrial Use No reviews yet Huzhou Huakong Trading Co., Ltd. CN

Looking for a low-voltage dustproof power distribution box? Check out our XL-21 model - designed for efficiency and reliability. As a factory, we pride ourselves on producing high-quality products that

The main business covers the manufacturing of medium-voltage and low-voltage switchgear up to 35kV, distribution transformers, new energy grid-connection cabinets, prefabricated substations.

Customized IP54 PLC Controlled Steel Busbar Low-Voltage 380V Control Cabinet for Municipal Outdoor Use No reviews yet Qingdao Huiang International Industry and Trade Co., Ltd. 1 yr

XL-21, a power distribution cabinet, is a crucial component in industrial and civil building electrical systems. Designed to provide safe and efficient distribution of electricity, it plays a vital role
