

Article Overview

Cable and fiber optic stripping tools typically range from \$10 to over \$200 depending on type, precision, and brand.

General Cable Stripping Tools

Manual cable strippers for standard electrical or Ethernet cables generally cost \$10 to \$50. These tools are designed for jackets and insulation removal on wires ranging from 10 to 22 AWG and are suitable for everyday use in networking or electrical work. Some multifunctional tools, like the Jonard JIC-1022, include spring-loaded mechanisms to reduce hand fatigue and can handle fiber jackets from 2 mm to 3 mm, usually priced around \$30 to \$60 .

Fiber Optic Stripping Tools

Fiber optic strippers are more specialized and precise, designed to remove coatings from delicate fibers without damage. Prices vary based on precision, adjustability, and brand:

- o Basic manual fiber strippers for 250 um to 900 um fibers typically cost \$15 to \$50. These are suitable for small-scale or occasional fiber work .
- o Precision tools like the WEICON fiber optic stripper, which can handle 200-250 um coatings with adjustable length stops and ergonomic design, are priced around \$50 to \$100 .
- o Multifunctional or professional-grade tools, such as the Jonard CST-4000 or AFL Precision Strip, which can strip multiple fiber sizes, perform simultaneous stripping, or include battery-powered heating elements, can range from \$100 to over \$200 .

Factors Affecting Price

- o Tool Type: Manual vs. battery-powered or multifunctional tools.
- o Precision: Tools designed for delicate fiber coatings are more expensive.
- o Brand and Quality: German-engineered or TUV-tested tools often cost more but offer durability and safety compliance .
- o Accessories: Some kits include blades, scissors, or cleaning materials, increasing the overall cost .

Summary

For most users, basic fiber strippers start around \$15, while professional or multifunctional tools can exceed \$200. Standard cable strippers for electrical or Ethernet cables are generally \$10-\$50, making it important to select a tool based on the type of cable, frequency of use, and required precision .

Semi-automatic fiber-stripping machines enable precise and efficient processing of coated, buffered, and jacketed glass fibers.

Shop our selection of fiber optic stripping machines for efficient cable preparation. Perfect for telecom and datacom applications. Bulk

Fully Automatic Fiber optic cable cutter 450X Automatic cable cutting machine is for cable cutting winding, measuring. The advantage

ST-3000T Automatic Fiber Cable Stripping Machine 2.0/3.0mm to 0.9mm The newly developed ST-3000T automatic fiber peeling

In order to solve the problem that the skin layer of optical fiber is usually peeled manually with wire peeling pliers, the diameter of

Find here Fiber Optic Stripper, Fiber Stripper manufacturers, suppliers & exporters in India.

Find efficient fiber optic cable stripping machines for your needs. Our range includes automatic and manual options, perfect for

Multiple Hole Fiber Strippers for Extra Flexibility The F-STR-103D series fiber optic strippers allow to strip the 2 - 3 mm outer jacket,

Fibretool offers advanced, field-proven fiber stripping machines for efficient processing of coated, buffered,

Find top-quality fiber optic cable cutting machines for precise and efficient fiber handling. Wholesale options available. Perfect for

The Schleuniger B300 Programmable Fiber Optic Cable Stripping Machine is the right choice for all those

ASM-3i Optical Fiber Cable Jacket Stripper Manufacturer Patch Cord Optical Cable Connector Strip Machine Cleaver and Stripping

Based on a professional technical team and diversified optical fiber and related product solutions, Neofibo aims to provide the

We have the right tool for every fiber and every cladding. Our range of optical fiber strippers extends from

Cable and Optical Fiber Stripping Machine Price

Find out all of the information about the Schleuniger product: optical fiber cable stripping machine

The RBTX-3000T Fiber Optic Cable Jacket Kevlar Stripping Machine efficiently strips and removes the jacket and Kevlar from
