

China Unicom fiber optic cable dragged on the ground

Preview

Swedish police investigators, conducting an inquiry into the severed fiber-optic cables in the Baltic Sea, believe that the Chinese bulk carrier Yi Peng 3 caused the damage by dragging its anchor for approximately 100 miles along the seabed. The Chinese ship, the bulk carrier Yi Peng 3 is anchored and being monitored by a Danish naval patrol vessel (unseen) in the sea of Kattegat, near the City of Granaa in Jutland, Denmark, on November 20, 2024. Denmark's navy said on November 20, 2024 it was shadowing a Chinese cargo vessel in the. Taiwan has seen multiple incidents of damage to its underwater infrastructure in recent years, with China widely suspected of being the culprit.
