

Article Overview

China hosts several leading fiber optic pigtail patch cord factories, including TTI Fiber, Shiningfiber, and Dongguan Blueto Electronics, offering high-quality products with global distribution.

Leading Manufacturers

TTI Fiber Communication Tech. Co., Ltd. Founded in 2013 and located in Shenzhen, TTI Fiber covers 12,000 square meters and holds ISO 9001, ISO 14001, REACH, RoHS, CE, and CPR certifications. They specialize in fiber optic products including patch cords, pigtails, splitters, and FTTx solutions. TTI Fiber provides OEM & ODM services, technical support, and exports to over 100 countries, serving clients in North America, Europe, Africa, and Asia . Shiningfiber One of the oldest fiber optic patch cord suppliers in China, Shiningfiber focuses on FTTH applications. Their production process includes cutting, curing, assembly, grinding, testing, and packaging. They source high-quality raw materials such as cores from CCTC, fibers from Sumitomo, and components from China Jiawei. This ensures stable quality and competitive pricing for patch cords and pigtails . Dongguan Blueto Electronics & Communication Co., Ltd. Established in 2011 in Dongguan, this factory manufactures fiber optic patch cords and optical transceiver modules. They emphasize quality control and reliable supply for global customers, providing both standard and customized solutions .

Product Features

- o Connector Types: SC, LC, ST, FC
- o Fiber Types: Single Mode and Multi Mode
- o Quality Assurance: 100% tested, well-polished ends to minimize signal loss
- o Customization: OEM/ODM services for special project requirements
- o Global Delivery: Factories provide fast shipping and support for international clients

Considerations When Choosing a Factory

- o Certifications: Ensure ISO, RoHS, CE compliance for quality and safety.
- o Raw Materials: High-quality fiber and components improve performance and durability.
- o Production Capacity: Large-scale factories can meet bulk orders efficiently.
- o Technical Support: Access to design and troubleshooting assistance is valuable.
- o Global Shipping: Reliable logistics for timely delivery to your location. These factories provide a comprehensive solution for sourcing fiber optic pigtail patch cords, combining quality, customization, and international service.

Learn how to pick the right fiber optic patch cord or pigtail. Avoid installation errors. Based

Fiber Optic Pigtail Patch Cord Factory

Fiber Optic Patch Cords & Pigtails Manufacturer is a leading fiber optic patch cord and pigtails manufacturer in

UnitekFiber supplies fiber optical connectivity products including patchcords, pigtails, MPO/MTP trunk cables, PLC splitters, FBT

Fiber optic pigtails are mainly for fast fusion splicing applications, while patch cords are for

The patch cords provide flexible interconnection to active equipment, passive optical devices and cross-connect. We offers diverse

Leviton fiber optic pigtail kits are for mechanical or fusion splicing applications, and are available in a range

Compare fiber optic pigtails and patch cords side by side. Understand key differences in

A fiber optic pigtail is a short length of optical fiber cable with a factory-terminated connector

After 13 years" great efforts on manufacturing and developing fiber optic products, we grow into a company with more than 800

The manufacturing process of fiber patch cord Normally, there are six steps when we produce the patch

Factory Areas more than 10000 square meters with 10 production lines of fiber have great production control system, quality control

This guide demystifies fiber optic patch cords and pigtails, exploring their definitions, designs, connector types, and

FS fibre optic pigtails offer a fast way to make fibre optic communication devices in the field by fibre

We also provide professional Fiber Cabling Solutions and one-stop OEM & ODM service. Our main

Wholesale customized patch cord, pigtail, fiber jumper, plc splitter, CWDM/DWDM, Mux/Demux, fiber

Learn about the differences between fiber optic pigtails and fiber patch cords, types of fiber pigtails and how to test connectors.
