Electrical panels generally should not be located in a bedroom for safety and accessibility reasons. Expect to pay \$1,500 to \$2,000 to move an electrical panel, with replacement adding another \$1,150 if your existing box needs upgrading. Electric and magnetic fields can extend out up to 36 inches from the electric panel. A panel cannot be located: 1). Is it a code violation if you place an electrical panel behind a door in a bedroom? I would assume it would not be good practice but I can not find anything specific in the NEC to prohibit this.
