

Article Overview

Zinc-Aluminum-Magnesium cable trays from Ninghua and other Chinese suppliers are priced competitively, with costs influenced by size, load capacity, customization, and order volume.

Price Overview

The price of Ninghua Zn-Al-Mg cable trays is not fixed and depends on several factors:

- o **Material and Coating:** These trays use a steel base with a Zn-Al-Mg alloy coating, offering superior corrosion resistance and durability compared to traditional galvanized trays, which can affect cost .
- o **Size and Load Capacity:** Cable trays come in various widths, side rail heights (10-500 mm), and maximum working loads (100-250 kg), with larger or higher-capacity trays costing more .
- o **Customization and OEM Options:** Factory-direct or OEM orders allow tailored dimensions, perforation patterns, and surface finishes, which can influence pricing .
- o **Bulk Orders:** Wholesale purchases often provide volume discounts, making large-scale procurement more cost-effective .

Supplier Examples

- o **Zhejiang Huikun Power Transmission** offers competitive wholesale prices with technical support, installation guidance, and after-sales service .
- o **Bangyu (Jiangsu, China)** provides industrial Zn-Al-Mg trough cable trays with delivery times of 20-30 days for average quantities, free samples, and customizable colors .
- o **Tianjin Qianxin International** specializes in high-strength, corrosion-resistant trays suitable for industrial, commercial, and photovoltaic applications, with worldwide shipping and installation guidance .

Cost Considerations

- o **Environmental Conditions:** Trays for coastal, chemical, or humid environments may cost more due to enhanced corrosion protection .
- o **Economic Efficiency:** Zn-Al-Mg trays are generally more economical than stainless steel while offering comparable or better durability .
- o **Service Life:** These trays typically last 3-5 times longer than traditional galvanized trays, which can justify higher upfront costs .

How to Obtain Prices

Ninghua Zinc-Aluminum-Magnesium Cable Tray Prices

To get accurate pricing for Ninghua Zn-Al-Mg cable trays:

- o Request a Quote: Contact suppliers directly via platforms like Made-in-China or Alibaba for tailored quotes based on your specifications .
- o Specify Requirements: Include tray dimensions, load capacity, quantity, and any customization needs.
- o Compare Suppliers: Evaluate multiple manufacturers to find the best combination of price, quality, and service. By considering these factors, you can secure competitive pricing while ensuring the cable trays meet your technical and environmental requirements.
