

## Article Overview

Vietnamese standard cable trays typically range from \$10 to \$50 per meter depending on material, coating, and size.

## Overview of Cable Tray Types and Materials

Vietnamese cable trays are manufactured in various materials, including G.I steel, hot-dip galvanized steel, powder-coated steel, and stainless steel (SUS304), with thicknesses ranging from 1.0 mm to 2.5 mm depending on the material and coating type . Standard lengths are usually 2400-2500 mm, and colors can be customized according to customer requirements . Common standards followed include NEMA VE1:1999, IEC, and JIS, ensuring compliance for industrial and commercial applications .

## Price Factors

The price of cable trays in Vietnam depends on several factors:

- o Material: Stainless steel trays are more expensive than G.I or hot-dip galvanized steel trays.
- o Coating: Hot-dip galvanizing and powder coating add to the cost.
- o Size and Load Class: Wider trays or those designed for heavy-duty applications cost more.
- o Supplier and Volume: Bulk orders from manufacturers like Thinh Phat, Bach Khoa Viet Nam, and HABT may reduce per-meter costs . Based on supplier listings and market data, typical prices range from \$10-\$20 per meter for standard G.I steel trays, \$20-\$35 per meter for hot-dip galvanized trays, and \$35-\$50 per meter for stainless steel trays . Custom sizes or specialized coatings may exceed these ranges.

## Sourcing Options

Vietnam has a robust network of cable tray manufacturers and exporters. Platforms like Alibaba Vietnam and Volza list multiple suppliers, allowing buyers to compare prices, shipment volumes, and supplier reliability . Local distributors such as Cat Van Loi and Yellow Pages Vietnam also provide direct sales and customization services .

## Recommendations

- o Request quotes from multiple suppliers to get the most competitive pricing.
- o Specify material, coating, and load requirements to ensure accurate pricing.
- o Consider bulk orders to reduce per-meter costs.
- o Verify certifications (ISO 9001, IEC, NEMA) to ensure quality compliance. By considering these factors,
