

The router is installed above the fiber optic port

Preview

The fiber is connected to an Optical Network Terminal (ONT) inside or outside your home. Essential for Full Fibre broadband to work. The Power Supply Unit (PSU) is essentially a plug that powers the ONT. The ONT is linked to your router or gateway using an Ethernet cable. The technician powers, tests, and. The fiber optic cable does not plug directly into a standard home router because the signal type must be translated.
