

Article Overview

3Onedata and Escom Co., Ltd. are leading providers of Layer 3 industrial switches in Vietnam, offering industrial-grade reliability and advanced network management features.

3Onedata Vietnam

3Onedata is a prominent manufacturer and distributor of industrial Ethernet switches in Vietnam, including Layer 2 and Layer 3 managed switches . Their industrial switches are designed for high reliability in harsh environments, featuring protection against static electricity, voltage surges, lightning, extreme temperatures, dust, moisture, and corrosion. Key features include:

- o SW-Ring technology for network recovery in under 20ms on networks with up to 250 nodes
 - o Support for ERPS, STP, RSTP, MSTP for network redundancy
 - o Compatibility with multiple network protocols to ensure data security and efficient traffic management
 - o Applications across power, transportation, energy, and industrial automation sectors
- 3Onedata Vietnam operates as the official distributor of 3Onedata products in Vietnam, providing direct pricing, technical support, and product consultation .

Escom Co., Ltd.

Escom Co., Ltd. supplies PLANET Layer 3 Managed Switches, suitable for both traditional Layer 2 and Layer 3 networks . Their switches support advanced routing protocols such as RIP, OSPF, BGP, and PIM-DM/SM, making them ideal for data centers, industrial networks, and virtualized environments. Escom emphasizes:

- o Rapid deployment and management of complex networks
- o Advanced Layer 3 features for efficient traffic routing and network segmentation
- o Support for industrial applications requiring high availability and scalability

Summary

For industrial applications in Vietnam requiring Layer 3 switches, both 3Onedata and Escom Co., Ltd. provide robust solutions with industrial-grade durability, advanced network protocols, and local support. 3Onedata is particularly strong in harsh industrial environments, while Escom focuses on managed Layer 3 networking for data centers and virtualized networks. Businesses can contact these companies directly for product specifications, pricing, and technical consultation to select the most suitable Layer 3 industrial switch for their network infrastructure .
